

Cage System Of Rearing The Improved Desi Chickens

KVK promoted model cages for the purpose to rear chicken upto the age of two months in chick cages and in adult layer cages for above two months.

The dimension of cages is,

Chick cage – 3x1x1feet	Adult cage- 5x1x1.25 feet
	

- Provision for watering and feeding are in built in this cage provision is also made to collect eggs.
- This cage help the improved desi chicken rearing owners to protect the chicks from the wild preying animals like mongoose, eagle, crow, dog, etc..
- This cage helps them to avoid the drudgery in cleaning the poultry droppings in and around the house and also the quarrel with neighbourhood because of intruding chicken
